Improved Artificer

A half-elf attaches the last metal plate to the small construct. It flies into the air and begins packing away tools and items into its interior space, preparing to set off on another run to find spare parts and metal.

A gnome adjusts his goggles as he prepares a trap of sticky liquids and bubbling poisons on the stone dungeon floor. As the gnolls approach he zips away on his grappling hook hand to await his plan in action.

A tiefling enters the abandoned room, dual pistols in hand. A few rats skitter across the floor as she sniffs out the magical item in this room. In the nick of time her guns go blasting as her enhanced eyes sees the invisible rogue in the corner preparing to strike.

The Artificer is an inventor, always tinkering and coming up with new inventions or augmentations. They can build on the fly, or work on projects for a long period of time. They mix the study of technology and magic to create wondrous items and creations of the wildest imaginations. Some made to kill, others to defend; an artificer's intentions are never truly clear. Many hope they are on the good side of the mad inventor.

This Improved Artificer is revamped from the original Unearthed Arcana Artificer. It has a focus on upgrading and creating a specific and customized class. You can build anything in the order you desire. This Artificer is to feel unique and special, No two inventors are the same.

Early Testing

We designed this class to be simple yet full of things to make In play we hope the class is fun, easy, and completely customi--zable. Most of the inventions are custom made and playtested in our home games. If anything feels unbalanced, too weak, or uninteresting, please feel free to give us feedback so we can improve the class. Another note; We want the class to feel as freeing as possible We highly recommend coming up with your own inventions and adding them to the class with your DM's permission.

The Artificer

Class Features

As an artificer, you gain the following class features

Hit Points

Hit Dice: 1d8 per artificer level

Hit Points at 1st level: 8 + your Constitution modifier

Hit Point at Higher Levels: 1d8 (or 5) + your Constitution modifier per artificer level after 1st

Proficiencies

Armor: Light and medium armor

Weapons: Simple weapons

Tools: Tinker's tools, and two other tools of your choice.

Saving Throws: Constitution, Intelligence

Skills: Choose three from Arcana, Deception, History, Investigation, Medicine, Nature, Religion, Sleight of Hand

Equipment

You start with the following equipment, in addition to the equipment granted by your background:

- (*a*) a handaxe and a light hammer or (*b*) any two simple weapons
- (*a*) a light crossbow and 20 bolts
- (*a*) scale mail or (*b*) studded leather armor
- tinker's tools and a dungeoneer's pack.

Inventions

Starting at 1st level you can begin crafting inventions of your design. Inventions are created by spending Invention Points to create any inventions listed below. There are four categories of inventions.

Alchemy.

Arcane Firearms.

Clockwork Construct.

Mechanical Limbs.

Each category has their own unique inventions that you can craft by spending Invention Points that are listed towards the end of this class description.

At 1st Level you gain 2 Invention Points. Each level you gain more invention points. You can choose to save them to stack points for a later level or spend them as you wish.

Magic Item Analysis

Starting at 1st level, your understanding of magic items allows you to analyze and understand their secrets. You know the artificer spells *detect magic* and *identify*, and you can cast them as rituals. You don't need to provide a material component when casting identify with this class feature

Tool Expertise

Starting at 2nd level, your proficiency bonus is doubled for any ability check you make that uses any of the tool proficiencies you gain from this class

Wondrous Invention

At 2nd level, you gain the use of a magic item that you have crafted. Choose the item from the list of 2nd-level items below.

Crafting an item is a difficult task. When you gain a magic item from this feature, it reflects long hours of study, tinkering, and experimentation that allowed you to finally complete the item. You are assumed to work on this item in your leisure time and to finish it when you level up. You complete another item of your choice when you reach certain levels in this class: 5th, 10th, 15th, and 20th level. The item you choose must be on the list for your current artificer level or a lower level.

These magic items are detailed in the *Dungeon Master's Guide*.

2nd level: *eyes of eagle, cap of water breathing, driftglobe, goggles of night, sending stones, lantern of revealing*

5th level: *alchemy jug, bag of holding, helm of comprehending languages, ring of swimming, robe of useful items, robe of climbing, wand of magic detection, wand of secrets.*

10th level: *bag of beans, chime of opening, decanter of endless water, gem of brightness, dimensional shackles, gloves of swimming and climbing, eyes of minute seeing, folding boat, heward's handy haversack*

15th level: *boots of striding and springing, brooch of shielding, broom of flying, gloves of missile snaring, hat of disguise, immovable rod, ring of jumping, slippers of spider climbing*

20th level: *wings of flying, rod of lordly might, plate of etherealness, deck of many things*

Spellcasting

As part of your study of magic, you gain the ability to cast spells at 3rd level. The spells you learn are limited in scope, primarily concerned with modifying creatures and objects or creating items

Spell Slots

The Artificer table shows how many spell slots you have to cast your spells of 1st level and higher. To cast one of these spells, you must expend a slot of the spell's level or higher. You regain all expended spell slots when you finish a long rest.

Spells Known of 1st Level and Higher

You know three 1st-level spells of your choice from the artificer spell list (which appears at the end of this document).

The Spells Known column of the Artificer table shows when you learn more artificer spells of your choice from this feature. Each of these spells must be of a level for which you have spell slots on the Artificer table.

Additionally, when you gain a level in this class, you can choose one of the artificer spells you know from this feature and replace it with another spell from the artificer spell list. The new spell must also be of a level for which you have spell slots on the Artificer table.

Spellcasting Ability

Intelligence is your spellcasting ability for your artificer spells; your understanding of the theory behind magic allows you to wield these spells with superior skill. You use your Intelligence whenever an artificer spell refers to your spellcasting ability. In addition, you use your Intelligence modifier when setting the saving throw DC for an artificer spell you cast and when making an attack roll with one.

Spell save DC = 8 + your proficiency bonus + your Intelligence modifier

Spell attack modifier = your proficiency bonus + your Intelligence modifier

Spellcasting Focus

You can use an arcane focus as a spellcasting focus for your artificer spells. See chapter 5, "Equipment," in the *Player's Handbook* for various arcane focus options.

Infuse Magic

Starting at 4th level, you gain the ability to channel your artificer spells into objects for later use. When you cast an artificer spell with a casting time of 1 action, you can increase its casting time to 1 minute. If you do so and hold a nonmagical item throughout the casting, you expend a spell slot, but none of the spell's effects occur. Instead, the spell transfers into that item for later use if the item doesn't already contain a spell from this feature.

Any creature holding the item thereafter can use an action to activate the spell if the creature has an Intelligence score of at least 6. The spell is cast using your spell casting ability, targeting the creature that activates the item.

If the spell targets more than one creature, the creature that activates the item selects the additional targets. If the spell has an area of effect, it is centered on the item. If the spell's range is self, it targets the creature that activates the item.

When you infuse a spell in this way, it must be used within 8 hours. After that time, its magic fades and is wasted. You can have a limited number of infused spells at the same time. The number equals your Intelligence modifier.

Ability Score Improvement

When you reach 4th, 8th, 12th, 16th, and 18th level, you can increase one ability score of your choice by 2, or you can increase two ability scores of your choice by 1. As normal, you can't increase an ability score above 20 using this feature.

Superior Attunement

At 5th level, your superior understanding of magic items allows you to master their use. You can now attune to up to four, rather than three, magic items at a time.

At 15th level, this limit increases to five magic items.

Soul of Artifice

At 20th level, your understanding of magic items is unmatched, allowing you to mingle your soul with items linked to you. You can attune to up to six magic items at once. In addition, you gain a +1 bonus to all saving throws per magic item you are currently attuned to.

Inventions

Inventions can be taken at any level so long as you spend the Invention Points listed next to the description. If an Invention can be upgraded, you must create the invention before upgrading it.

Alchemy

You can craft potions, acids, and different chemical compounds infused with magic. Once you create a alchemical compound you can continue to make more without spending Invention Points.

Alchemical Fire

2 Invention Points

As an action, you can pull out a vial of volatile liquid, and hurl the vial at a creature, object, or surface within 30 feet of you. On impact, the vial detonates in a 5-foot radius. Any creature in that area must succeed on a Dexterity saving throw or take 1d6 fire damage.

This formula's damage increases by 1d6 when you reach certain levels in this class: 4th level (2d6), 7th level (3d6), 10th level (4d6), 13th.

Alchemical Acid

2 Invention Points

As an action, you can pull out a vial of acid, and hurl the vial at a creature, object, or surface within 30 feet of you. On impact, the vial shatters. Any creature in that area must succeed on a Dexterty saving throw or take 1d6 acid damage.

This formula's damage increases by 1d6 when you reach certain levels in this class: 3rd level (2d6), 5th level (3d6), 7th level (4d6), 9th level (5d6), 11th level (6d6), 13th level (7d6), 15th level (8d6), 17th level (9d6), and 19th level (10d6)

Healing Drought

2 Invention Points

As an action, you can pull out a vial of healing liquid, A creature can drink it as an action to regain 1d8 hit points. Once a creature regains hit points from this alchemical formula, the creature can't do so again until it finishes a long rest.

This formula's damage increases by 1d8 when you reach certain levels in this class: 3rd level (2d8), 5th level (3d8), 7th level (4d8), 9th level (5d8), 11th level (6d8), 13th level (7d8), 15th level (8d8), 17th level (9d8), and 19th level (10d8)

.

Smoke Stick
2 Invention Points

As an action, you can pull out a stick that produces a thick plume of smoke. You can hold on to the stick or throw it to a point up to 30 feet away as part of the action used to produce it. The area in a 10-foot radius around the stick is filled with thick smoke that blocks vision, including darkvision. The stick and smoke persist for 1 minute and then disappear. After using this formula, you can't do so again for 1 minute.

Swift Step Draught
2 Invention Points

As a bonus action, you can pull out a vial filled with a bubbling, brown liquid. As an action, a creature can drink it. Doing so increases the creature's speed by 20 feet for 1 minute. If not used, its contents spoil after 1 minute. After using this formula, you can't do so again for 1 minute.

Tanglefoot Bag
2 Invention Points

As an action, you can pull out a bag filled with writhing, sticky black tar and hurl it at a point on the ground within 30 feet of you. The bag bursts on impact and covers the ground in a 5-foot radius with sticky goo. Any creatures caught in the area must succeed a dexterity saving throw or become restrained. That area becomes difficult terrain for 1 minute, and any creature that starts its turn on the ground in that area has its speed halved for that turn. After using this formula, you can't do so again for 1 minute.

Thunderstone
2 Invention Points

As an action, you can pull out a crystalline shard and hurl it at a creature, object, or surface within 30 feet of you. The shard shatters on impact with a blast of concussive energy. Each creature within 10 feet of the point of impact must succeed on a Constitution saving throw or be knocked prone and pushed 10 feet away from that point. Any spellcasters that are concentrating on a spell must succeed a concentration check at disadvantage if within the area of affect.

.

Arcanic Firearms

With your skills as an engineer, you can craft rifles, guns, and pistols. Each firearm has unique upgrades and special abilities. The firearms are built specifically for you and can look however you desire.

Ammo

Ammunition for the firearms can only be crafted. The materials cost 5gp for every 10 rounds. You must spend 1 hour of down time and use your tinker's tools to craft the ammo out of the materials. Ammo is universal and can be used for any gun.

Misfire

Due to the chaotic and unpredictiable sciences involved in these machines, they can backfire when you least expect it. If you roll a natural 1 when attacking with any firearm, you misfire. Roll a D6, if you roll a 1 through 5 the shot is a dud and requires an extra action to fix. If you roll a 6 the firearm backfires. You must succeed a dexterity saving throw or take the weapon damage. If you succeed you take half damage.

If anyone other than you attempts to use the weapon, it automatically misfires.

Dual Pistols
2 Invention Points

You craft two pistols that fire rapidly but take long to reload. Your attack bonus while using the pistols is your dexterity modifier + proficiency. The pistols operate as if dual wielding; they use seperate attacks but do not add a bonus to AC.

Damage: 1d4 piercing damage + INT modifier.
Range: 50/100
Rate of fire: Reload every 3 shots per pistol.
Reload time: 1 action to reload both pistols.
Weight: 3lbs each
Upgrades:

- *1 Invention Point:* Increase rate of fire to 5 shots.
- *2 Invention Points:* Increase damage dice to a d6.
- *2 Invention Points:* All ammo fired from pistols becomes magical for overcoming resistances.
- *3 Invention Points:* Increase damage dice to a d8. (requires damage upgrade to d6)
- *3 Invention Points:* Increase reload speed to a bonus action.

Rapid Fire *3 Invention Points:* You can fire both pistols again in one round (4 attacks). You can do this as many times as your Intelligence modifier per long rest.

.

Blunderbuss
2 Invention Points

You craft a firearm with a short range and large barrel which is flared at the muzzle that can pack a large punch.

Your attack bonus while using the blunderbuss is your dexterity modifier + proficiency.

The blunderbuss's damage changes based on the range at which you fire it.

The blunderbuss requires two hands to operate.

Damage:

Any range: 1d6 piercing damage.

Within 20ft: 2d6 piercing damage.

Within 10ft: 3d6 piercing damage.

Range: 30/60

Rate of fire: Reload every 2 shots.

Reload time: 1 action.

Weight: 8lbs.

Upgrades:

2 Invention Points: Increase rate of fire to 4 shots.

2 Invention Points: Increase rate of fire to 6 shots. (requires rate of fire upgrade to 4 shots)

2 Invention Points: All ammo fired from blunderbuss becomes magical for overcoming resistances.

2 Invention Points: Increase damage dice to d8.

3 Invention Points: Increase damage dice to d10. (requires damage upgrade to d8)

Knockdown *2 Invention Points:* You can charge your shot with some magical energy. When you attack and you hit, target creature makes a dexterity saving throw or is pushed 10 ft away and knocked prone. You can use this ability as many times as your Intelligence modifier, and resets each long rest.

Sniper Rifle
2 Invention Points

You craft a rifle made for long range, steady accuracy, and deadly precision.

Your attack bonus while using the sniper rifle is your dexterity modifier + proficiency.

The sniper rifle requires two hands to operate.

Damage: 1d10 + Intelligence modifier.

Range: 150/300

Rate of fire: Reload every 3 shots.

Reload time: 1 action.

Weight: 10lbs.

Upgrades:

1 Invention Point: Increase rate of fire to 5 shots.

2 Invention Points: Increase range to 300/450.

2 Invention Points: All ammo fired from sniper rifle becomes magical for overcoming resistances.

2 Invention Points: Increase damage to 2d10.

3 Invention Points: Increase damage to 3d10. (requires damage upgrade to 2d10)

Aimed Fire *4 Invention Points:* You charge the rifle with magical energy to aim precisley for a weak spot. If you hit when attacking with this rifle, you can turn the hit into an automatic critical. You can use this ability as many times as your Intelligence modifier and resets each long rest.

Clockwork Construct

Being a master tinkerer, you can bring to life a construct that does your bidding. The construct is made of metal, clockwork, and magic. It can look however your desire, and can have any sort of personality you want to give it (if it has one).

When you invent any new construct, you also learn the *mending* cantrip. Mending can heal your construct up to your Intelligence modifier. You also gain the ability to cast mending at higher levels. Each level of spell you add into your *mending* cantrip increases the healing by 1d8. You can also spend a short rest repairing your construct by rolling its hit dice and healing it the total you roll, or to full health during a long rest.

If the construct is killed, it can be returned to life via revivify spell. In addition, over the course of a long rest, you can repair a slain servant if you have access to its body. It returns to life with 1 hit point at the end of the rest. If the servant is beyond recovery, you can build a new one with one week of work (eight hours each day) and 1,000 gp of raw materials.

Clockwork Drone

2 Invention Points

You craft a small flying construct made for discreet stealth and recon. The drone follows your commands and acts on your turn in combat.

Clockwork Drone

Small construct, unaligned

Armor Class 17
Hit Points 15 (6d4-6)
Speed 0 ft., fly 50 ft.

STR	DEX	CON	INT	WIS	CHA
8 (-1)	16 (+3)	8 (-1)	1 (-5)	10 (+0)	1 (-5)

Saving Throws DEX +5
Skills Arcana +2, History +2, Perception +4, Religion +2, Stealth +4
Damage Immunities Poison, Psychic
Condition Immunities Charmed, Deafened, Frightened, Paralyzed,Petrified, Poisoned.
Senses passive Perception 14
Languages --
Challenge 3 (700 XP)

Claw Grab The drone has a claw that can grab and pick things up that weigh no more than 60 pounds.

Actions

Claw. *Melee Weapon Attack:* +3 to hit, reach 5 ft., one creature. *Hit:* 6 (1d4+3) slashing damage.

Upgrades:

1 Invention Point: Increase Hit Points by +10

2 Invention Points: Increase Armor class by +1 to a maximum of +6.

2 Invention Points: Increase carrying capacity by +50lbs to a maximum of +200lbs.

Stealth Field *2 Invention Points:* As an action the drone can turn invisible for 1 hour. It can use this feature as many time as half your intelligence modifier rounded down and resets each long rest.

Shrink *3 Invention Points:* As a bonus action, the drone can shrink down to the size of a few inches. The drone operates as normal and can transform back as a bonus action when you decide.

Lockpick *2 Invention Points:* You give the drone built in lockpicking tools. The drone can automatically open any non-magical locks. It can use this feature as many time your intelligence modifier and resets each long rest.

Remote Detonation *1 Invention Point:* As an action, the drone can explode. Each creature in a 10ft radius must succeed a dexterity saving throw or take 10d10 fire damage, or half of much if they succeed. Once the drone has detonated it cannot be brought back to life by magical means and a new one must be crafted as described on page 6.

Clockwork Fighter

2 Invention Points

You craft a humanoid sized constrauct made for brawling and fighting. The drone follows your commands and rolls its own initiative during combat.

Clockwork Fighter

Medium construct, unaligned

Armor Class 14
Hit Points 28 (5d8)
Speed 30 ft.

STR	DEX	CON	INT	WIS	CHA
16 (+3)	14 (+2)	10 (+0)	1 (-5)	10 (+0)	1 (-5)

Skills Athletics +5, Intimidation +3
Damage Immunities Poison, Psychic
Condition Immunities Charmed, Deafened, Frightened, Paralyzed Petrified, Poisoned.
Senses passive Perception 10
Languages --
Challenge 3 (700 XP)

Actions

Punch. *Melee Weapon Attack:* +5 to hit, reach 5 ft., one creature. *Hit:* 11 (2d6+3) bludgeoning damage.

Upgrades:

1 Invention Point: Increase Hit Points by +10

1 Invention Point: Increase Attack bonus by +1

2 Invention Points: Increase Armor class by +1 to a maximum of +6.

2 Invention Points: Construct gains multiattack.

3 Invention Points: Increase Damage Dice to a d10

Shrink *3 Invention Points:* As a bonus action, the drone can shrink down to the size of a few inches. The drone operates as normal and can transform back as a bonus action when you decide.

Grapple Hands *3 Invention Points:* You upgrade the hands of the construct that can fire up to 60ft away. The hands are attached via rope and can pull items, pull itself, hang from ceilings, etc.

Head Bomb *1 Invention Point:* As an action the fighter can screw off its head and make a ranged attack. +10 to hit. If it hits, the head explodes and the target takes 5d10 fire damage & 5d10 bludgeoning damage. While the construct is missing its head, it moves in a random direction dictated by a roll of a d8 when moving in combat. It costs 200gp to repair the head.

.

Clockwork Mount

2 Invention Points

You craft a large construct in the shape of an animal that you can ride. The drone follows your commands and acts on your turn in combat.

Clockwork Mount

Large construct, unaligned

Armor Class 10
Hit Points 40 (4d10+12)
Speed 50 ft.

STR	DEX	CON	INT	WIS	CHA
18 (+4)	10 (+0)	16 (+3)	1 (-5)	10 (+0)	1 (-5)

Skills Athletics +5
Damage Immunities Poison, Psychic
Condition Immunities Charmed, Deafened, Frightened, Paralyzed Petrified, Poisoned.
Senses passive Perception 10
Languages --
Challenge 3 (700 XP)

Baggage Space The mount has an extra space on the inside that can hold up to 80lbs of equipment.

Actions

Slam *Melee Weapon Attack:* +5 to hit, reach 5 ft., one creature. *Hit:* 6 (1d10) bludgeoning damage.

Upgrades:

1 Invention Point: Increase Hit Points by +10

1 Invention Point: Increase carrying capacity by +50lbs to a maximum of +500lbs.

1 Invention Point: Give mount a horn that is whatever sound you choose.

1 Invention Point: You craft a remote with a single button, when the button is pressed the mount comes to you as quick as possible as long as you are on the same plane of existense.

2 Invention Points: Increase Armor class by +1 to a maximum of +6.

Shrink *3 Invention Points:* As a bonus action, the drone can shrink down to the size of a few inches. The drone operates as normal and can transform back as a bonus action when you decide.

Shielding Seat *3 Invention Point:* You craft an interior to the mount that you can sit inside of yet still see out of. While inside the mount, you cannot be targeted by attacks or spells, you also cannot target any creatures with spells or attacks.
It is a bonus action to go inside or outside.

Auto Mobile Mount *4 Invention Points:* You craft magical motorized wheels on the mount, replacing the legs. This increases the speed of the mount to 80ft and gains a trample attack. One creature must succeed a dexterity save or take 2d10 bludgeoning damage.

Mechanical Limbs

You take your knowlege of construct creations and engineering and apply them to your own body. You can augment yourself to improve aspects of your body. Each augmentation replacing your old body part and cannot be repaired unless by magical means.

Madness

Chopping off arms and replacing them with magical metal comes at a cost. Every time you take 3 mechanical upgrades, roll Constitution save against your own DC, If you fail you gain 1 random indefinite madness from the Dungeon Masters Guide that cannot be resolved except from a *wish* spell.

After 3 failures, you become a construct. Losing all intelligence, sentience, and charisma. The DM takes control of your character.

Face

Arcane Scent *1 Invention Point:* You craft a mechanical nose that can smell if an item is magic if you hold it up to your nose.

1 Invention Point: Know the school of magic.

1 Invention Point: Increase range to 30ft.

Mechanical Sense *1 Invention Point:* You craft mechanical ears and gain a +3 to perception checks that rely on hearing.

1 Invention Point: Translates 2 languages.

3 Invention Points: As a bonus action you cannot be snuck up on or surprised for 10 minutes. You can use this upgrade as many times as your intelligence modifier and resets each long rest.

Robotic Eye *1 Invention Point:* You craft a mechanical eye and gain a +3 to perception checks that rely on sight.

2 Invention Points: Gain a +2 to ranged attacks.

3 Invention Points: You can see invisible creatures for 10 minutes. You can use this upgrade as many times as your intelligence modifier and resets each long rest.

Arms

Grappling Hook Hand *2 Invention Points:* You craft a mechanical hand that has a rope attached. The hand has a range of 40ft, can pull or carry up to 250lbs.

1 Invention Point: The rope becomes a *rope of entanglement.*

Arcane Hand *2 Invention Point:* You craft a mechanical hand that can cast spells. Choose up to 3 level 1 spells from the Sorcerer Spell List. You can cast each spell once each long rest.

2 Invention Points: Choose 2 spells from level 2 spells.

2 Invention Points: Choose 2 spells from level 3 spells. (Prerequisite: Upgrade 1)

2 Invention Points: Choose 2 spells from level 4 spells. (Prerequisite: Upgrade 3)

Arm Guard *2 Invention Points:* You craft a mechanical hand that can create a shield. You must attune to the arm with a spell slot. As an action you can cast a spell slot into the arm to generate a shield. The shield grants a AC bonus of +2. If the bonus added to your armor class is met on an attack roll, the shield takes damage. The shield has 30 hitpoints until it is destroyed.

1 Invention Point: You can cast a spell slot above Level 1 into the shield. For every level above 1st the shield gains AC +1 and 10 extra hit points.

Legs

Calibrated Legs *2 Invention Points:* You augment both of your legs which increases your carrying capacity by 25 lbs.

1 Invention Point: Increases your carrying capacity by another 25 lbs.

2 Invention Points: Increases your walking speed by +10 ft.

2 Invention Points: Increases your jump height by double.

3 Invention Points: As a bonus action you can gain tremorsense for 10 minutes. You can use this upgrade as many times as your intelligence modifier and resets each long rest.

.

Torso

Armored Torso: *2 Invention Points:* You replace pieces of your flesh with metal and armor, increasing your armor class by +2.

2 Invention Points: Increases your maximum hit points by 10 to a maximum of 50.

3 Invention Points: Increase your armor class additionally by +2

3 Invention Points: Replace your digestive system, organs, and other important bits for magical artificer metal and remove your ability to eat food or drink water.

3 Invention Points: Replace your blood with new magical super blood! You can no longer take poison damage or suffer the poisoned condition.

3 Invention Points: Replace your lungs with new super high-tech magical resperators that oxidize your blood just the same. You no longer need to breathe air.

Artificer Spell List

1st Level
alarm
cure wounds
disguise self
expeditious retreat
false life
jump
longstrider
sanctuary
shield of faith

2nd Level
aid
alter self
arcane lock
blur
continual flame
darkvision
enhance ability
enlarge/reduce
invisibility
lesser restoration
levitate
magic weapon
protection from poison
rope trick
see invisibility
spider climb

3rd Level
blink
fly
gaseous form
glyph of warding
haste
protection from energy
revivify
water breathing
water walk

4th Level
arcane eye
death ward
fabricate
freedom of movement
Leomund's secret chest
Mordenkainen's faithful hound
Mordenkainen's private sanctum
Otiluke's resilient sphere
stone shape
stoneskin
